Tennessee Pet Friendly Cabin Rentals

If you're looking for a well-maintained, clean, pet friendly vacation rental cabin, you've found the right place. We know how difficult it can be to find a really nice cabin that accepts pets. Our cabins don't have old carpet that smells like dogs, which is sometimes what you get with a pet friendly rental. Not here. We keep our cabins in top condition and only accept well-mannered dogs who are good travelers. Which cabin is best for our pet?

If you have an active dog, we highly recommend Swaying Pines Chalet of Gatlinburg. You'll have a small yard for your dog to roam about while you're outside relaxing on the deck, cooking on the grill or throwing horseshoes. Plus right around the corner from Swaying Pines is a 6 acre community lake. It's about a half mile walk to go around the lake-- perfect for dogs who need daily exercise. Dogs must be on a leash while at the lake.

GrandView of Pigeon Forge has no yard area since you're on the side of a mountain, but you can walk your dog along the quiet street if he or she needs to get out for walks and exercise. There's very little traffic and plenty of spots for them to do their business.

Treehouse Hideaway of Pigeon Forge has almost 1 acre of wooded property atop a ridge. There's a small yard area that's ideal for dogs. If your pet needs more exercise and play space, we highly recommend the pet friendly park about two miles away (right behind the Kroger store). Another plus at TreeHouse is that both the upper and lower decks are enclosed, which provides additional safety and security for the smallest dogs. Look Who's Stayed and Played at Blue Mist Cabins
